

CONTENT

A. Alexandrov. Editor column 2

MATERIALS SCIENCE

A. Mamonov, Yu. Chernyshova, A. Safaryan, V. Karpov, S. Sarychev
Study on effect of innovative treatment technologies on structure and physicochemical properties of zirconium and titanium alloys for implanted medical products 4

S. Skvortsova, M. Afonina, O. Gvozdeva, V. Pozhoga, N. Ruchina
Effect of thermal-hydrogen treatment on thermal stability of the structure and mechanical properties complex of the titanium alloy with a high aluminium content 12

S. Skvortsova, O. Umarova, E. Agarkova, A. Chernyshova
Effect of heat treatment on structure and mechanical properties of plate from VTI-4 intermetallic alloy..... 17

SEMI-PRODUCTS MANUFACTURING TECHNOLOGIES

N. Nochovnaya, V. Vaganov, P. Panin, A. Shiryaev, V. Berbentsev, A. Aborkin
Research on structure of titanium wire obtained by high-temperature gas extrusion 22

A. Larionov, V. Chumarev, A. Rylov, M. Trubachev, S. Vohmentsev
Smelting of the nitrogen-bearing V-Al-Ti alloys in the crystallizer of the electroslag furnace 29

V. Leonov, V. Kopylov, T. Lukyanova, K. Martynov, L. Rtischeva, M. Shtutsa, Yu. Karpov
Launching the production of hot-deformed tubes made of titanium alloys at JSC «Chepetskiy mechanical plant» 37

S. Kuznetsov, A. Alexandrov, E. Afonin
Particularly production of titanium spherical powder by prep new generation..... 41

TITANIUM MARKET

Yu. Kusakina, L. Fedorova, T. Yagudin
Cluster approach application for innovative technologies in the branches of production and processing of titanium alloys for the purpose of import substitution..... 45
