Vol. 25, No. 1, 2016

Mathematical Formalism to the Theory of Multiple (Reiterated) Self-Propagating High-Temperature Synthesis <i>O. V. Lapshin and V. K. Smolyakov</i>	1
Mechanically Induced Self-Sustaining Reactions <i>R. Ebrahimi-Kahrizsangi, M. Abdellahi, and M. Bahmanpour</i>	5
SHS in the Nb–Si System: Influence of Mechanical Alloying <i>O. A. Shkoda and O. G. Terekhova</i>	14
β -SiAlON–BN Composites by Infiltration-Mediated SHS under High Pressure of Nitrogen Gas <i>K. L. Smirnov</i>	17
Low-Temperature Solution-Combustion Synthesis and Magneto-Structural Characterization of Polycrystalline $\text{La}_{1-x}\text{Ag}_y\text{MnO}_3$ ($y \leq x$) Manganites <i>C. O. Ehi-Eromosele, B. I. Ita, A. Edobor-Osoh, and F. E. Ehi-Eromosele</i>	23
Combustion of Ti–Al–C Compacts in Air and Helium: A TRXRD Study <i>P. M. Bazhin, D. Yu. Kovalev, M. A. Luginina, and O. A. Averichev</i>	30
Preparation of Ti_2AlN by Reactive Sintering <i>M. A. Luginina, D. Yu. Kovalev, and A. E. Sytshev</i>	35
Electrothermal Explosion under Pressure: Ti–C Blends in Porous Electroconducting Envelope <i>V. A. Shcherbakov, A. N. Gryadunov, V. T. Telepa, and A. V. Shcherbakov</i>	39
Self-Ordering of Balls in Compressed Thin Layers <i>M. A. Ponomarev and V. E. Loryan</i>	43
SHS amidst Other New Processes for In-Situ Synthesis of Al-Matrix Composites: A Review <i>H. Nath and A. P. Amosov</i>	50

Brief Communications

Aluminothermic SHS of Ferrochromium from Ore Concentrate: Influence of Al Content of Green Composition on Phase Segregation <i>A. R. Kachin, V. E. Loryan, and I. P. Borovinskaya</i>	59
SHS Joining in the Ti–C–Si System <i>O. K. Kamynina, S. G. Vadchenko, A. S. Shchukin, I. D. Kovalev, and A. E. Sytshev</i>	62
