

GEOCHEMICAL JOURNAL

Volume 50

Number 4

2016

CONTENTS

- Y. LIU, Q. CHENG, K. ZHOU, Q. XIA and X. WANG: Multivariate analysis for geochemical process identification using stream sediment geochemical data: A perspective from compositional data 293
- K. NAGAO, M. K. HABA, J. I. LEE, T. KIM, M. J. LEE, C. PARK, Y. J. JWA and B.-G. CHOI: Major elements and noble gases of the Jinju (H5) meteorite, an observed fall on March 9, 2014, in South Korea 315
- C. YE, M. ZHENG, Z. NIE, Y. LV and Q. WU: Mg-borate deposit formation: Recharge and lake water hydrogeochemistry of Nie'er Co Lake, north-western Tibet 327
- X.-G. CHEN, H.-Y. ZHANG, X. LI, C.-T. ARTHUR CHEN, T. F. YANG and Y. YE: The chemical and isotopic compositions of gas discharge from shallow-water hydrothermal vents at Kueishantao, offshore northeast Taiwan 341
- NOTE**
- S. S. NAIK and P. D. NAIDU: Carbonate preservation during the 'mystery interval' in the northern Indian Ocean 357
- EXPRESS LETTER**
- D. L. PINTI, A. ISHIDA, N. TAKAHATA, Y. SANO, H. BUREAU and P. CARTIGNY: Micron-scale $\delta^{13}\text{C}$ determination by NanoSIMS in a Juina diamond with a carbonate inclusion e7
