

M. Kaczorowski, G. Rokicki – Reactive surfactants – chemistry and applications. Part I. Polymerizable surfactants (<i>in English</i>)	747
A.H. Mohammed, M.B. Ahmad, N.A. Ibrahim, N. Zainuddin – Synthesis and monomer reactivity ratios of acrylamide with 3-(trimethoxysilyl)propyl methacrylate and tris(methoxyethoxy)vinylnsilane copolymers (<i>in English</i>)	758
M. Bratychak, O. Iatsyshyn, P. Bruzdziak, J. Namiesnik, O. Shyshchak – Synthesis and properties of carboxy derivative of Epidian 6 monomethacrylate (<i>in English</i>)	766
Y.-H. Cai, Y.-H. Zhang, L.-S. Zhao – Evaluation of the effect of <i>N,N'</i> -bis(1 <i>H</i> -benzotriazole) dodecanedioic acid acethydrazide on poly(L-lactic acid) (<i>in English</i>)	773
A. Ryczek, J.B. Lechowicz, M. Walczak, H. Galina – Condensation polymerization of AB ₂ monomers – modeling and validation of model of polyreaction performed at the room temperature (<i>in English</i>)	780
A. Kloziński – Application of <i>in-line</i> measurement technique for evaluation of rheological properties of polyethylene/calcium carbonate composites	788
E. Malewska, S. Bąk, M. Kurańska, A. Prociak – The effect of various rapeseed oil-based polyols on selected properties of flexible polyurethane foams (<i>in English</i>)	799
M. Zieleniewska, L. Szczepkowski, M. Krzyżowska, M.K. Leszczyński, J. Ryszkowska – Rigid polyurethane foam composites with vegetable filler for application in the cosmetics industry (<i>in English</i>)	807
W. Zatorski, K. Sałasińska – Combustibility studies of unsaturated polyester resins modified by nanoparticles	815
D. Czycz, J.R. Grzechowiak, J. Pięłowski – Synthesis and characteristics of mesoporous aluminosilicate materials for modification of polymers	824
L. Wagner, M. Ponto-Wolska, Z. Raszewski, Ł. Zadrozny – Evaluation of bonding strength between selected polymer cements, root dentin and glass fiber reinforced composite posts (<i>in English</i>)	831
M. Żenkiewicz, T. Żuk, J. Pietraszek, P. Rytlewski, K. Moraczewski, M. Stepczyńska – Electrostatic separation of binary mixtures of some biodegradable polymers and poly(vinyl chloride) or poly(ethylene terephthalate) (<i>in English</i>)	835
H. Song, J. Liu, F. Xue, F. Cheng – Study of inorganic powders used for preparation of waterproof coating to coal mine roadways (<i>in English</i>)	844
Rapid Communications	
M. Bieliński, P. Czyżewski, A. Kościuszko – Investigation of the resistance to environmental stress crack of high density polyethylene parts (<i>in English</i>)	850
R. Szatajko, M. Oleksy, R. Oliwa, G. Budzik – Composites of phenol-formaldehyde resin used for impregnating fiberglass mesh (<i>in English</i>)	855

The "Polimery", a monthly of international circulation, published by the Industrial Chemistry Research Institute, Warsaw, Poland, is publishing pre-reviewed scientific and technical research papers covering polymer science and technology in the field of plastics, rubbers, chemical fibers and paints. The topics covered are raw materials, synthesis of polymers, plastics processing and applications.

The papers are abstracted and indexed by: "Chemical Abstracts", "The Alerts. Materials Information" (USA); "Engineering Materials", "RAPRA-Abstracts", "World Surface Coatings Abstracts", "INSPEC-Abstracts" (UK); "Referativnyi Zhurnal. Khimiya" (Russia); "CEABA" (DECHEMA), "Klebstoff- Dokumentum", "Literatur-Schnelldienst. Kunststoffe, Kautschuk, Fasern", "DOMA FIZ TECHNIK" (Germany); "TAURUS" (Hungary); Index Copernicus, BazTech (Poland).

Since 1995, the "Polimery" has been indexed by the Institute for Scientific Information (ISI).

Current Impact Factor is 0.718; IF for a period 2011–2015 is 0.706.
