

GEOCHEMICAL JOURNAL

Volume 51

Number 2

2017

CONTENTS

- X. LANG, J. TANG, Q. YIN, Z. CUI, Y. HUANG, J. ZHANG, Y. GAO, Z. LI, F. DING, F. XIE, Z. YANG and M. ZENG: Geochemistry and genesis of Eocene lamprophyres in the Xiongcu porphyry copper-gold district, southern margin of the Lhasa terrane, Tibet, China 123
- S. CHAO, L. CHANGLI and H. GUILIN: Impact of fertilization with irrigation on carbonate weathering in an agricultural soil in Northern China: A column experiment 143
- L. ZHANG, Z.-Y. REN, J.-L. MA and X.-P. XIA: Correction of mass fractionation for isotope dilution analysis by MC-ICP-MS 157
- H. HUANG: On the origin of molecular compositions in the Proterozoic extractable organic matter from the Jixian section, Northern China 167
- D. A. ZEDGENIZOV, A. A. KALININ, V. V. KALININA, YU. N. PALYANOV and V. S. SHATSKY: Nitrogen and hydrogen aggregation in natural octahedral and cuboid diamonds 181

NOTES

- H. TAZOE, H. OBATA, M. TOMITA, S. NAMURA, J. NISHIOKA, T. YAMAGATA, Z. KARUBE and M. YAMADA: Novel method for low level Sr-90 activity detection in seawater by combining oxalate precipitation and chelating resin extraction 193
- K. TOYAMA and Y. TERAKADO: An experimental study of Na, Mn, Sr and Ba partitioning between dolomite and MgCl₂ solution at 130 and 200°C 199
