
CONTENTS

<i>A. Amelian, K. Winnicka</i> – Polymers in pharmaceutical taste masking applications (<i>in English</i>)	419
<i>E. Jamróz</i> – Characteristics of biopolymer films with essential oils.	428
<i>A. Rudawska, P. Jakubowska, A. Kloziński</i> – Surface free energy of composite materials with high calcium carbonate filler content (<i>in English</i>).	434
<i>K.J. Wilczyński</i> – Determination of viscosity curves based on limited rheological measurements	441
<i>P. Palutkiewicz, T. Garbacz</i> – Assessment of the effectiveness of selected blowing agents in the injection molding of thermoplastic materials	447
<i>K. Moraczewski</i> – Influence of the method of polylactide surface preparation for metallization process on the structure of deposited copper layer	457
<i>D. Kuśmierczyk, M. Czarnecki, M. Tykarska, K. Małkiewicz</i> – Assessment of degree of conversion of polymer-based orthodontic adhesive resins (<i>in English</i>)	466
<i>M. Urbaniak, R. Gołuch-Góreczna, A.K. Błędzki, S. Gajdziński</i> – Natural Cork. Part II. Properties and applications.	472
