

# Journal of Mineralogical and Petrological Sciences

Published by Japan Association of Mineralogical Sciences

August 2015

Volume 110, Number 4

## ORIGINAL ARTICLES

- 157** Structural rationale for the occurrence of the elbow twins in cassiterite and rutile. *M. NESPOLO and B. SOUVIGNIER*
- 166** Geochemical behavior of zirconium during Cl-rich fluid or melt infiltration under upper amphibolite facies metamorphism — A case study from Brattnipene, Sør Rondane Mountains, East Antarctica. *F. HIGASHINO, T. KAWAKAMI, N. TSUCHIYA, M. SATISH-KUMAR, M. ISHIKAWA, G.H. GRANTHAM, S. SAKATA, K. HATTORI and T. HIRATA*
- 179** Decarbonation and melting in  $MgCO_3$ - $SiO_2$  system at high temperature and high pressure. *S. KAKIZAWA, T. INOUE, H. SUENAMI and T. KIKEGAWA*
- 189** EDS quantification of light elements using osmium surface coating. *H. OHFUJI and M. YAMAMOTO*

Journal of Mineralogical and Petrological Sciences is the successor journal to both "Journal of Mineralogy, Petrology and Economic Geology" and "Mineralogical Journal".
