

# Journal of Mineralogical and Petrological Sciences

Published by Japan Association of Mineralogical Sciences

October 2015

Volume 110, Number 5

## ORIGINAL ARTICLES

- 197** 3D chemical mapping of 'Mn-caldera shaped zoning' garnet found from the Sanbagawa metamorphic belt of the Besshi district, SW Japan. *K. YOSHIDA and T. HIRAJIMA*
- 214** The mineralogical characterization of argentine cryptomelane from Xiangguang Mn-Ag deposit, North China. *C. FAN, L. WANG, X. FAN, Y. ZHANG and L. ZHAO*
- 224** SHRIMP U-Pb zircon ages of granitoids adjacent to Chitradurga shear zone, Dharwar craton, South India and its tectonic implications. *A. NASHEETH, T. OKUDAIRA, K. HORIE, T. HOKADA and M. SATISH-KUMAR*

## LETTERS

- 235** Thermal equation of state of lawsonite up to 10 GPa and 973 K. *N. CAI, T. INOUE and T. KIKEGAWA*
- 241** Cathodoluminescence characterization of enstatite. *S. OHGO, H. NISHIDO and K. NINAGAWA*

Journal of Mineralogical and Petrological Sciences is the successor journal to both "Journal of Mineralogy, Petrology and Economic Geology" and "Mineralogical Journal".
