METAMORPHISM AND CONTINENTAL GROWTH Part 1

- 47 Metamorphism and continental growth: Introduction. *M. SATISH-KUMAR, T. KAWAKAMI and N. NAKANO*

ORIGINAL ARTICLES

- 50 A Matter of time: The importance of the duration of UHT metamorphism. *S.L. HARLEY*
- 73 Pan-African granulites of Madagascar and southern India: Gondwana assembly and parallels with modern Tibet. *I.C.W. FITZSIMONS*
- 89 Peak and post-peak development of UHT metamorphism at Mather Peninsula, Rauer Islands: Zircon and monazite U-Th-Pb and REE chemistry constraints. *T. HOKADA, S.L. HARLEY, D.J. DUNKLEY, N.M. KELLY and K. YOKOYAMA*
- 104 U-Pb zircon geochronology in western part of the Rayner Complex, East Antarctica. *K. HORIE, T. HOKADA, Y. MOTOYOSHI, K. SHIRAISHI, Y. HIROI and M. TAKEHARA*
- 118 Detrital zircon provenances for metamorphic rocks from southern Sør Rondane Mountains, East Antarctica: A new report of Archean to Mesoproterozoic zircons. *I. KITANO, Y. OSANAI, N. NAKANO and T. ADACHI*
- 129 Possible polymetamorphism and brine infiltration recorded in the garnet-sillimanite gneiss, Skallevikshalsen, Lützow-Holm Complex, East Antarctica. *T. KAWAKAMI, T. HOKADA, S. SAKATA and T. HIRATA*
