|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>BENIGN, PATHOGENIC AND COPY NUMBER VARIATIONS OF UNKNOWN CLINICAL SIGNIFICANCE IN PATIENTS WITH CONGENITAL MALFORMATIONS AND DEVELOPMENTAL DELAY</b><br>Mihaylova M, Staneva R, Toncheva D, Pancheva M, Hadjidekova S .....                                                                  | 5  |
| <b>GENETIC ANALYSES OF THE <i>NF1</i> GENE IN TURKISH NEUROFIBROMATOSIS TYPE I PATIENTS AND DEFINITION OF THREE NOVEL VARIANTS</b><br>Ulusal SD, Gürkan H, Atlı E, Özal SA, Çiftçdemir M, Tozkır H, Karal Y, Güçlü H, Eker D, Görker I.....                                                     | 13 |
| <b>INHERITED THROMBOPHILIAS COULD INFLUENCE THE REPRODUCTIVE OUTCOME IN WOMEN WITH SYSTEMIC LUPUS ERYTHEMATOSUS</b><br>Robeva R, Tanev D, Andonova S, Nikolova M, Tomova A, Kumanov Ph, Savov A, Rashkov R, Kolarov Zl .....                                                                    | 21 |
| <b>MOLECULAR AND IMMUNOHISTOCHEMICAL CHARACTERISTICS OF COMPLETE HYDATIDIFORM MOLES</b><br>Kubelka-Sabit KB, Prodanova I, Jasar D, Bozinovski G, Filipovski V, Drakulevski S, Plaseska-Karanfilska D.....                                                                                       | 27 |
| <b>GENETIC POLYMORPHISMS OF HEMOSTATIC FACTORS AND THROMBOTIC RISK IN NON <i>BCR-ABL</i> MYELOPROLIFERATIVE NEOPLASMS: A PILOT STUDY</b><br>Dambrauskienė R, Gerbutavičius R, Ugenskienė R, Jankauskaitė R, Savukaitytė A, Šimoliūnienė R, Rudžianskienė M, Gerbutavičienė R, Juozaitytė E..... | 35 |
| <b>ANALYSIS OF MEIOTIC SEGREGATION PATTERNS AND INTERCHROMOSOMAL EFFECTS IN SPERM FROM 13 ROBERTSONIAN TRANSLOCATIONS</b><br>Wang B, Nie B, Tang D, Li R, Liu X, Song J, Wang W, Liu Z.....                                                                                                     | 43 |
| <b>THE <i>LRPI</i> GENE POLYMORPHISM IS ASSOCIATED WITH INCREASED RISK OF METABOLIC SYNDROME PREVALENCE IN THE SERBIAN POPULATION</b><br>Vučinić N, Stokić E, Djan I, Obreht D, Veličković N, Stankov K, Djan M .....                                                                           | 51 |
| <b>ASSOCIATION OF THE <i>APOLIPOPROTEIN A-I</i> GENE POLYMORPHISMS WITH CARDIOVASCULAR DISEASE RISK FACTORS AND ATHEROGENIC INDICES IN PATIENTS FROM ASSAM, NORTHEAST INDIA</b><br>Bora K, Pathak MS, Borah P, Hussain Md.I, Das D.....                                                         | 59 |
| <b>EFFECT OF THE Pro12Ala POLYMORPHISM OF THE PEROXISOME PROLIFERATOR-ACTIVATED RECEPTOR <math>\gamma</math>2 GENE ON LIPID PROFILE AND ADIPOKINES LEVELS IN OBESE SUBJECTS</b><br>Becer E, Çirakoğlu A .....                                                                                   | 71 |
| <b>ANALYSIS OF THE MITOCHONDRIAL 4977 bp DELETION IN PATIENTS WITH HEPATOCELLULAR CARCINOMA</b><br>Guo ZS, Jin CL, Yao ZJ, Wang YM, Xu BT.....                                                                                                                                                  | 81 |

Case Reports

**X-AUTOSOME AND X-Y TRANSLOCATIONS IN FEMALE CARRIERS: X-CHROMOSOME  
INACTIVATION EASILY DETECTABLE BY 5-ETHYNYL-2-DEOXYURIDINE (EDU)**

Donat M, Louis A, Kreskowski K, Ziegler M, Weise A, Schreyer I, Liehr T..... 87

**SIRENOMELIA ASSOCIATED WITH HYPOPLASTIC LEFT HEART IN A NEWBORN**

Turgut H, Ozdemir R, Gokce IK, Karakurt C, Karadag A..... 91
