

Last number of the volume

CONTENTS

J. YAMAMOTO, H. ISHIBASHI and K. NISHIMURA: Cooling rate responsiveness of pyroxene geothermometry	457
M. MINAMI, Y. JOMORI, K. SUZUKI and A. OHTA: Grain-size variations in $^{87}\text{Sr}/^{86}\text{Sr}$ and elemental concentrations of stream sediments in a granitic area: Fundamental study on $^{87}\text{Sr}/^{86}\text{Sr}$ spatial distribution mapping	469
W. LIU, Z. XIA and H. YANG: Emission inventory and distribution characteristics of atmospheric polycyclic aromatic hydrocarbons in a coking industry city in Northern China	485
M. NISHIZAWA, M. SAITOH, Y. MATSUI, Y. USUI, and T. SHIBUYA: Removal of organic contaminants from iron sulfides as a pretreatment for mineral-mediated chemical synthesis under prebiotic hydrothermal conditions	495
Z. WANG, K. HUANG, D. ZHANG, X. LIU, W. LUO and L. YOU: Rare earth element and Yttrium (REY) geochemistry of Cenozoic carbonates on the Xuande Atoll of the Xisha Archipelago, the South China Sea: Implications of the impact of dolomitization on REY	507
C. C. KAONGA, K. TAKEDA, H. SAKUGAWA and H. YAMAZAKI: Pesticides and heavy metals in sediment core samples from a coastal area in Japan	525
T. AKAGI, T. MIURA, R. TAKADA and K. WATANABE: Plagioclase weathering by mycorrhizal plants in a Ca-depleted catchment, inferred from Nd isotope ratios and REE composition	537
L. HU, Y.-S. DU, A.-J. WANG and Z.-L. YUE: Adakitic rocks explained by the deep accumulation of amphibole and apatite near the crust-mantle boundary: a case study from the Tongling region, Lower Yangtze River belt, eastern China	551
M. O. SUNDAY and H. SAKUGAWA: A fluorometric method for the selective determination of lipid hydroperoxides in river water	571

NOTES

Y. MIYOSHI, K. SHIMADA, H. SATO, S. UEHARA and J. ISHIBASHI: Convenient analysis of chemical composition of clay fraction of sediment by electron probe microanalyzer	583
M. IGISU, T. KOMIYA, Y. IKEMOTO, Y. GENG and H. UEHARA: Studying microscale distributions of aliphatic C-H bonds in Neoproterozoic prokaryotic fossils using SR micro-FTIR	589
