

GEOCHEMICAL JOURNAL

Volume 52

Number 3

2018

CONTENTS

- J. KIMURA, Q. CHANG and A. FURUSAWA: Analysis of matrix effect in laser ablation inductively coupled plasma mass spectrometry for rhyolitic glass: Critical evaluation with new Aso-4 b-W synthetic glass blocks 227
- H. UEDA, E. TAKAZAWA, R. KATO and Y. ADACHI: Evaluation of time-resolved mean-of-ratios reduction for laser ablation zircon U-Pb dating using quadrupole ICPMS 241
- K. FUKUDA, W. FUJIYA, H. HIYAGON, Y. MAKINO, N. SUGIURA, N. TAKAHATA, T. HIRATA and Y. SANO: Beryllium-boron relative sensitivity factors for melilitic glasses measured with a NanoSIMS ion microprobe 255
- T. BELL, A. IGUCHI, A. SUZUKI, A. SEKI and Y. YOKOYAMA: Testing possible relationships between *Acropora digitifera* genes, seawater chemistry and skeletal elements 263
- A. S. GOTO, K. MIURA, T. KORENAGA, T. HASEGAWA, N. OHKOUCHI and Y. CHIKARAISHI: Fractionation of stable nitrogen isotopes ($^{15}\text{N}/^{14}\text{N}$) during enzymatic deamination of glutamic acid: Implications for mass and energy transfers in the biosphere 273
- NOTE**
- S. SAKATA: A practical method for calculating the U-Pb age of Quaternary zircon: Correction for common Pb and initial disequilibria 281
