

## CONTENTS

U. KNITTEL, M. WALIA, S. SUZUKI, Y.-H. LEE, N. TAKESUE and H.-Y. LEE: U-Pb ages and Hf isotope composition of zircon from the Shimanto accretionary complex: Evidence for heterogeneous sources .....	277
H.-T. HE, L.-C. XING, S.-J. QIN, X.-Y. JI and P.-F. SUN: Equilibrium Cd isotopic fractionation between $\text{Cd}(\text{OH})_{2(\text{s})}$ , apatite, adsorbed $\text{Cd}^{2+}$ , and $\text{Cd}^{2+}_{(\text{aq})}$ : Potential application of $\delta^{114}\text{Cd}$ in evaluating the effectiveness of Cd-contamination remediation .....	289
X. ZHOU, Y. LIU, J. WANG, Z. WANG, G. XIONG, X. XIONG and Y. ZHOU: Fractal dimension and its control factors of shales in Wufeng and Longmaxi Formations, Southwestern Sichuan Basin .....	299
T. MOCHIZUKI, K. KAWAMURA, T. YAMAGUCHI and I. NOGUCHI: Distributions and sources of water-soluble organic acids in fog water from mountain site (Lake Mashu) of Hokkaido, Japan .....	315
S. N. ALI, A. SHARMA, S. AGRAWAL, M. G. YADAVA, R. A. JANI, J. DUBEY and P. MORTHEKAI: Oxygen and deuterium isotope characteristics of Teesta river catchment from Sikkim Himalaya, India: Implications of different moisture sources .....	327
A. NAKAMURA, T. OKAI and A. OHTA: Optimizing the Pratt-type titrimetric method to determine FeO in geochemical reference materials .....	337
