Vol. 30, No. 1, 2021

To the Theory of Flow SHS Reactors <i>A. P. Aldushin</i>	1
Combustion Wave Propagation in between Two Reactive Layers: Mathematical Modeling with Account for Melting and Interdiffusion <i>K. G. Shkadinsky, S. A. Rogachev, and P. M. Krishenik</i>	5
Reduction of Mn, Cr, and V Precursors in a Wave of Flameless RDX Combustion <i>Yu. M. Mikhailov, V. V. Aleshin, L. V. Zhemchugova, A. V. Bakeshko, and D. Yu. Kovalev</i>	11
Subtle Details in Crystal Structure of SHS Products by DFT Calculations <i>S. V. Konovalikhin, I. I. Chuev, D. Yu. Kovalev, S. A. Guda, and V. I. Ponomarev</i>	15
Combined Use of SHS and SPS: Important Mechanistic Details <i>A. S. Rogachev, S. G. Vadchenko, G. V. Trusov, and Yu. B. Scheck</i>	22
Cu–Sb Solder Alloy by Combustion Synthesis: Structural Characterization and Magnetic Properties <i>S. Hamdi, A. Hafs, and T. Hafs</i>	30
Ultra-Refractory $\text{Hf}_4\text{ZrC}_5$ – $(\text{Hf},\text{Zr})\text{B}_2$ Composites by Electrothermal Explosion under Pressure <i>V. A. Shcherbakov, A. N. Gryadunov, and M. I. Alymov</i>	36
Thermolysis of Calcium Iodate: Kinetic Parameters <i>Yu. M. Maksimov, A. M. Shulpekov, A. N. Avramchik, and B. Sh. Braverman</i>	40
Generation of Thermo-EMF during Combustion of Ti–xB Mixtures ( $x = 0.75$ – $5.5$ ) in Conditions of Quasi-Static Compression <i>V. A. Shcherbakov and V. Yu. Barinov</i>	47
Combustion Synthesis of TiC Powders from Ilmenite Mineral and Activated Carbon <i>N. Rattanaphan and T. Chanadee</i>	51

## Brief Communications

Lightweight Al–Ti–Mg Alloy by SHS Method <i>P. A. Lazarev, A. E. Sytshev, N. V. Sachkova, and I. D. Kovalev</i>	55
TiC–20% Cr(Ni) Composites by Forced SHS Compaction: Influence of Mechanical Activation Mode <i>Yu. V. Bogatov and V. A. Shcherbakov</i>	58
