

An introduction to

PatBase *Express*

The simple, searchable patent family
database from Minesoft and RWS Group

PatBase

PatBase has been developed in partnership by

minesoft &  **RWS GROUP**

Overview

What?

- Launched in February 2006 by Minesoft Ltd and RWS Group in partnership
- Based on PatBase – the professional patent database released in 2003
- A simple and intuitive way of searching patents for end-users
- Access the same comprehensive data as PatBase, with a streamlined interface

Who?

- Designed to make searching patent information accessible company-wide to users with all levels of experience: engineers, R & D, patent attorneys, information scientists, licensing

Why?

- Used for legal IP searches, general technological or competitor searches, monitoring and visualization
- An ideal tool to promote awareness and use of patent information throughout the enterprise
- Cost effective, fixed annual subscription – no per-use or ongoing charges

Why use PatBase Express?

- Search patents from over **95 issuing authorities** worldwide in a single database: US, WO, EP, GB, CA, FR, CN, JP and many more
- Patents and text grouped into extended **families** – saves time by avoiding duplication
- Search across a comprehensive coverage that includes:
 - **40m patent families**
 - **16.2m Latin Full-Text records**
 - **8.7m non-Latin Full-Text records**
- PatBase Express allows the most up-to-date scientific research and competitor information contained in patent documents to be accessed throughout an organization
- A corporate-wide solution. Flexible access options designed for multi-user sites: password or IP-verified access
- Intuitive interface – minimal training required

Title: GOLF BALL DIMPLE PATTERN

Abstract:
Source: US2006264271A. A golf ball (20) having a non-planar parting line (25), a first false non-planar parting line (26 a) and a second false non-planar parting line (26 b). A first group (32) of parting dimples defines the non-planar parting line (25). A second group (33) of parting dimples defines the first false non-planar parting line (26 a). A third group (34) of parting dimples defines the second false non-planar parting line (26 b). A plurality of hexispheres (70) are defined by the non-planar parting line (25) the first false non-planar parting line (26 a) and the second false non-planar parting line (26 b).

EP0587285B - Claims

1. A **golf** ball comprising: an outer spherical surface with **dimples** formed therein, said **dimples** being arranged in a grid pattern, each of said **dimples** forming a spherical equilateral triangle, the medians of equal length radially intersect at least six **dimples**.

2. A **golf ball** as claimed in claim 1, said side have a first diameter intersected by each side.

Traduction automatique EP0587285B

1. Une composition de boule de golf: une surface sphérique externe avec des fossettes formées là-dedans, lesdites fossettes étant arrangées dans un modèle géométrique défini par une pluralité de lignes de grille imaginaires qui divisent ladite surface sphérique externe en icosaèdron ayant vingt régions triangulaires; chacune de lesdites régions triangulaires défini par trois de lesdites lignes de grille qui forment un triangle équilatéral sphérique ayant trois côtés de longueur égale et de trois médianes de longueur égale; et lesdites fossettes étant arrangées de sorte que chacun de lesdits côtés intersecte radialement au moins sept fossettes et chacune de lesdites médianes intersecte radialement au moins six fossettes.

2. Une boule de golf selon la revendication 1, où les fossettes radialement intersectées par chaque ledit côté ont un premier diamètre et où au moins deux des fossettes ont radialement intersecté par chaque ladite médiane ont un deuxième diamètre.
