The Imaging Science Journal

Vol 63 No 7 2015 ISSN 1368-2199

Contents

A broad review about face recognition – feature extraction and recognition techniques 361
R. Sharma and M. S. Patterh

Dynamic selective information hiding based on search order coding with low bit rate 378
C.-C. Chang, M.-C. Lin and T.-F. Cheng

Contact angle measurement on micropatterned surface using sessile drop shape fit profile detection 389
A. Chebolu and Nagahanumaiah

Dual image based reversible data hiding method using neighbouring pixel value differencing 398
K. H. Jung

Multifocus noisy image fusion using contourlet transform 408
R. Srivastava and A. Khare
