

Journal of Mineralogical and Petrological Sciences

February 2016

Volume 111, Number 1

Published by Japan Association of Mineralogical Sciences

ORIGINAL ARTICLES

- 1** Distribution of Mn in pink elbaite tourmaline from Mogok, Myanmar. *K. SUGIYAMA, H. ARIMA, H. KONNO and T. KAWAMATA*
- 9** Zircon growth in a granitic pluton with specific mechanisms, crystallization temperatures and U-Pb ages: Implication to the 'spatiotemporal' formation process of the Toki granite, central Japan. *T. YUGUCHI, H. IWANO, T. KATO, S. SAKATA, K. HATTORI, T. HIRATA, S. SUEOKA, T. DANHARA, M. ISHIBASHI, E. SASAO and T. NISHIYAMA*
- 35** Crystal structure refinements of legrandite, adamite, and paradamite: The complex structure and characteristic hydrogen bonding network of legrandite. *S. JINNOUCHI, A. YOSHIASA, K. SUGIYAMA, R. SHIMURA, H. ARIMA, K. MOMMA and R. MIYAWAKI*
- 44** INSTRUCTIONS FOR CONTRIBUTORS

Journal of Mineralogical and Petrological Sciences is the successor journal to both "Journal of Mineralogy, Petrology and Economic Geology" and "Mineralogical Journal".
